Swami's Global Conference Call

Swami Reaching Out to His Students

Call From the Ashram

June 2, 2010

Swami: Hi guys. This is Swami from Penukonda. Hey, it's not an emergency but I want to give a message regarding the Guru Purnima program. Don't guys get disturbed, and be alert, and be in the mission of the Guru Parampara. Actually I wanted to be in Shirdi. Some security precautions, I stayed here. Whatever it is, I'm looking at the Jesus and Dattatreya...right now I'm in the Jesus Temple. The flames are beautiful running.

Just I want to give a message to you guys. I lost my brother. Yes, it's a cold murder and whatever it is. To give the truth to the planet, something I needed to lose, that is the mission. It's okay, but all guys, try to be very careful in all angles. Try to complete. I'm your son...and sisters and brothers please try to think about the mission of the clarity, it's most important otherwise we cannot do it. Two thousand years back the big boss was harassed.

I'll release the book in fifteen, twenty days. You'll get shocked with evidence and proof. The whole globe will get shake. No matter what it is, yes everybody needs to understand the Reality, the clarity, the divinity, and the proof. With evidence I'm releasing it. It's coming. My Lord, whatever He's giving the decision, I'm totally accepting it in all angles, no problem. My Dear Divine Souls, I need your prayers and your great regards.

Today I should be in Shirdi, early morning 2 a.m., already my wife, my daughter, my mother and father in law, are already in

Shirdi 2 a.m. my time. It means, few hours back, several hours back, I was supposed to take off with a charter flight landing near Shirdi but some criminals were there, the police caught them. They wanted to attack on me but you'll know. I'll send you all the criminal pictures who is the background, devil. It's okay, my Lord, Jesus, and Baba are with me. Mother Divine is with me. I'm not lying, it's perfectly evident and everything perfectly clear.

Please, my Dear Divine Souls, one thing I want from you, your gift. I'm not asking anything... Die for truth, live for the love. I'll stay with you. Guru Parampara will be with you. You need to hear this. Die for truth, live for love, stand for the Reality, Life is short - make it sweet.

Many people, whatever gossips are running, okay, listen from one ear, another ear leave out. It's all gossip. Your Swami is always loyal to the dignity and Divinity. Some black devils are working in the backside. My Divine Souls, be careful and at attention, especially the senior students, I'm giving warning to them. I'm looking near in front of Jesus there. Be careful, also you guys, too, be attention. My love and regards, my blessing will always be with you no matter what.

Next Monika T. and Tatyana, they'll speak. They'll catch up the subject. Guru Purnima, don't miss it. Come one or two days, out, as you like not forcing. It's important, a Ninety Days Program, I'll put it on the internet. Directly I can put in on the internet, then you'll watch what I will explain there. Even if you don't understand the Telugu language, of course you'll get it. Don't underestimate it, be careful, let the mission to come out. My Lord is Jesus and Baba is with me. I will hand out to Tatyana and Monika T.

All my love and regards with you, and I need your prayers. I'm your son, your brother, please send your prayers, if the truth is great we'll win it. We'll see. Thank you. All my love, great regards. Forget about unnecessary blames. Leave it. My Lord is with me. Thank you.

Next part is Monika T from Laytonville and Tatyana's from Penukonda follow-up comments.

Monika T: Thank you Swami. We have another great blessing of Swami connecting with us again on this global conference call. There are people in over fifteen countries world-wide listening to Swami's message. It was only a few weeks ago that Swami joined us for a global conference call, so we are extremely fortunately that he's keeping us together in this way to receive his messages from Penukonda.

He asked Tatyana and I to go over what he just said and to go over some of the recent events. Why don't we start with hearing what Swami said to us? He said it wasn't an emergency, but he wanted to give a message for the Guru Purnima Program.

He said not to get disturbed, to be in the mission of the Guru Parampara, that he wanted to go to Shirdi but because of security precautions he stayed here in Penukonda. He mentioned again, about losing his brother, cold murder. That even to give a truth to the planet, something he needed to lose. It's okay. Then again he warned us to be careful in all angles.

He said he was our son, our brother, and he asked us to think about the mission of the clarity. That it's most important, otherwise he won't be able to do it. Same way, two thousand years, the big boss got harrassed. And he said he's going to release the book in twenty days. Tatyana, do you have more information about that book to share? I was wondering if you have more to share with us about the release of the book?

Tatyana: Yea, first of all hello to everybody. It's really great that you came on the call at such an interesting, unusual time. I know in America it's in the middle of the night, and in Germany, probably, it's before your lunch-time. And most of you are at work. So I'm right now sitting here in the Jesus Temple and all the students here in Peukonda are gathering in the old dhaba, also listening to the talk.

You heard Swami saying, originally he wanted to be in Shirdi to visit Baba and just have a beautiful darshan with him. And yesterday, all the stuff, everybody was busy to arrange; everything was arranged, a beautiful helicopter flight, like everything was perfect but then in the last minute, Swami decided not to take any risk and he decided to stay here.

But nevertheless, he didn't want to postpone the phone. He wanted to check in with you guys at least for a few minutes and

also share and express, you heard it, Swami's also still going through a hard time but at the same time, very positive things are coming up.

Just before the call, we were sitting with him in the office, and right now in the Penukonda Court a case is running against that newspaper who did, over many, many weeks, who unnecessarily writing crazy stuff about him. And right now the process in the Court is running to give a fair judgment, and hopefully afterward, everything will calm down.

I've been with Swami here in the ashram for many, many years, ten and a half years I'm staying with him, and we all can feel it, right now it's not the easiest time we have together with him and our mission. And right now is really the time to be really strong, and to focus on what is really important.

Just before the talk he shared again his heart feelings, that it's so difficult to bring the truth out now-a-days in the world, because we all know since many, many years Swami's always telling about the nature of this Yuga. We're living in the Kali Yuga. He said that only thirty percent of the people are really having a clear, pure mind. And if we can really find these people, like, it's really difficult in the moment to bring the truth out.

And we see since many, many weeks Swami is going through a hard time. His family is being attacked. He's being attacked in the newspaper. Nevertheless, he keeps go. He keeps go and does his work. He's still working very hard. In the next few days some Telugu professors will come to the ashram and we keep doing our work on the book. You heard he's planning to release the next volume very soon.

So everybody who's here right now, I deeply appreciate all the hard work the seva crew is doing here. It's very, very peaceful here at the ashram right now. We had a few days little relief after the Chandra Nadi Program happened here at the ashram.

And one more time, I want to say thank you for everybody who came here. We deeply appreciated all the cooperation from your side, and all the team-work and we really enjoyed a beautiful program here. And I hope that all your meditation processes are going well. Today or tomorrow Ethan is sending out a follow-up mail with more information about that.

And Swami said that the Ninety Day Program, he announced during that Chandra Nadi Program here in Penukonda. I don't know if that message already spread in America among the American students. There will be probably right after Guru Purnima, a Ninety Day Program where he's teaching straightly from that book. And we are getting more clarity from Swami about the details, the exact timings. So we'll put more information about that up on the web page.

So one more point I wanted to share about whatever is going on right now. This is the time... many times we heard Swami saying, "What is true friendship?" We might have a lot of friends around when we're having an easy time, when everything is okay, and our life is peaceful, but whenever the disturbances are coming from outside, that's really the time we can show our friendship to Swami, and our loyalty, to really stick on that and to really trust in our own experiences whatever Swami... he shared so much. He's not only our master, he's really our beautiful, dear friend. And you can see him, whatever he does, it's always related to helping and uplifting anybody.

Just a few days he came back from a trip. Very close by he went to a wedding ceremony, and afterward he came back and he shared that he announced at the wedding program that he's supporting two thousand students (Indian), completely supporting their education, like food, whatever they need...and he really felt so happy about that, seeing some students being given the opportunity and the chance to get some education in their lives. And he just felt so happy having the thought that they're so happy, and afterward they can do great service to the society.

So whatever Swami gave us: knowledge, experiences, his love and true friendship, this is right now the time to keep that seed, to make that seed grow and not get disturbed now, whatever is running in the outside. I know many students are receiving emails and phone calls, so what advice he gave us today, simply hear it with one side and let it go out the other side of your ear. If you keep focusing on that, then unnecessarily we're wasting our time. You get disturbed, then you're creating you're putting energy into that. So this is really the time. We always here Swami talking, "Do or die for the truth." Talking is very easy, but standing strong whenever we have to face unnecessary gossip, or whatever form the testings, or the illusions might come. So this is right now the

time we can show our love and friendship to Swami, and really recognize what he has given over the years, what he sacrificed in his young age.

So please, my message as a student amongst you, I'm just sharing my heart feelings seeing Swami really many, many hours, like night and day, he's sitting in his office, in his chair, and he's non-stop fighting for the truth to come out.

One experience I had with him which really touched my heart, was when we flew back from one of the last Europe trips. I was sitting next to him in the plane. After awhile I noticed he was having a hard time. I've never seen Swami like that before. I noticed a small tear coming out of his eye, and then I went over and said, "Hey man, what is going on? Is everything okay?"

And then he said, "I'm seeing so many negative forces is trying to disturb this planet. I'm seeing the whole globe is suffering from so much negativity. There are so many people in my country, in India, they don't have anything to eat. They don't have anything. They're really poor. I'm the man for the poor and for the helpless."

And then it was just a moment where I could feel it was really painful for him to see all that, but still he keeps whatever he can, He's sacrificing everything. He's sacrificing his time, everything. He's giving to make a change, and that change will definitely take some time. And he also told us in the past not to expect to see the fruits. You know, like probably... I don't know, we can see, we can share our love, but probably the fruits of what he's bringing, the future generations they will recognize. The same time, the students who were around Baba or Jesus, they didn't really recognize the greatness of their master. They had doubts. They had doubts on him, on their processes. All the things Swami mentioned before many, many years back, he knew these timings are coming.

So this is the time right now, we have to recognize where we are and we have to really be strong and not get diverted, not waste our time. Really, whatever you can do to focus on your inner truth. Whatever you can do to support your clarity, focus on that. Be peaceful and not to get disturbed by anything what is coming from the outside.

And we know Swami loves that statement, "Truth will win in the end." And I know he's waiting for that day, when the professors,

the scientists will prove, will recognize what the real fragrance of that knowledge is. And that day will come, but now we have to be strong and just keep go until that day is there.

So now I talked much more than I actually planned. I'm sorry Monika. I hope you're still there.

Monika T: Yes, Tatyana thank you.

Tatyana: I'm seeing how hard time Swami's family is going through. You know, everything, it's hitting from every angle and Swami is a great master, but same time he's also a human being. He also has feelings. So it also hurts when some people write some untruth about him. Simply ignoring is not a solution. Right now he's fighting back. He's fighting to protect himself. He's fighting to bring the true justice, and that day will come. And today hopefully after that Court session is over, one chapter will be closed forever.

Just from heart I want to share, I'm sitting here next to Swami's office. His music is running again. He just keeps listening to the music to relax. And while he's doing that he keeps thinking, "What are the next steps? How to bring the knowledge? How to bring the truth to the world? Which angle to go?"

And one more time I want to say thank you to everybody who's here in the ashram. And I'm really looking forward to that day when we all feel, 'Hey we made it. We made it together. We stand together in those difficult times and this is the result.' That's it.

Monika T: Thank you so much, Tatyana, for giving us that fragrance of being there now with Swami, what the reality is there with him. Every person who is on this call has been touched by Swami's love and friendship. He is standing for us and taking care of us and sacrificing for us. And hearing the reality what it is like for him to be going through this and how much he needs our support and our clarity. He asked again, he said, "One thing I want from you a gift, "Die for truth, live for the love. I'll stay with you. The Guru Parampara will be with you. You need to hear this. Die for truth. Live for love. Stand for the reality. Life is short, make it sweet."

He's also asking us, he's warning the senior students to be careful and to be at attention, but his love is with us. He's going to be on TV 5 and all of this situation from Puttaparti, (*call was disconnected briefly*). I'm back. So Swami said the whole game was happening from Puttaparti. Their trust members were attacking the Penukonda samasthan – that means the ashram in Penukonda. He's saying that straightly and is asking for our prayers. "I'm your son, I'm your brother, if the truth is great, we'll win it."

Recently for the last couple of months, Swami has asked for our prayers. So many people have heartfully poured out their prayers, their attention, their meditation, their processes, sending beautiful messages to Swami. It's all making a difference, they're really helping him, helping the mission and helping to bring out the ancient knowledge. So he's asking us to continue with those prayers, and to keep our efforts strong and keep our clarity strong.

One of the things he said recently at the Chandra Nadi Initiation, was a beautiful description of Mother Divine and what Mother Divine is putting him through. He put it in another perspective.

"This is Her way of testing how much I really can stand, any master can stand in the Mother Nature very powerfully, whatever Her illusions are flowing on you, how much you really can tolerate it. She's an unbelievably loving lady and at the same time She wants to know your capacity. Like a master giving an examination, after the final examination you need to write a test and you need to pass this, your qualification. At the same, like a mother, She's putting a kind of test on you. You need to win the test to recognize which angle She's coming, and going through. It doesn't matter if you want to escape it, once She caught you, that's it. Not only Paramahansa, not only Jesus Christ, not only Swami, not only Babaji, every person, one step, one angle, it's a process. It's good. It's good. It's good. It means She's concentrating on you."

Swami's telling us about the Mother, the Mother is testing him. In the same way the Mother is testing all of Swami's students too. How are we standing in these illusions in the nature, and where we're standing? As Tatyana was saying the beautiful advice of remembering, just remembering the clarity of the friendship and the love and everything Swami has given to us. And standing in the reality of the channels that we've been given and the processes that we've been given, and the experiences that we've been given.

Swami said, "You'll see what is going to happen soon. More, more, more beautiful things are going to happen." But right now the Mother is giving birth and She's going through birth pains. And at the same time we're being tested, we're asked to put our sankalpam and our energy and prayers to Swami and to the ancient mission to bring it forward.

And as he said, in the next few weeks he'll be releasing the book to the world, and then another chapter is started in this great Divine drama. So Tatyana, did you have anything else from Penukonda?

Tatyana: I think for today, I mean, this is my first conference call like this and I feel I talked enough for today. I just want to say everything is okay. Even if it's a difficult time, I can see Swami, Swami's a great example in every way. And just seeing him going through this time, it's also a great example for each one of us how to deal with the nature's illusions and the testings. And there are also moments he's laughing and making a joke. Keep focusing on his goal. Don't lose the goal. He's never, ever losing his mission, his goal out of his sight, no matter how strong the waves from the outside are coming. And it's just inspiring to see that. Even though it's a hard time, keep go, keep go, keep go, and at the end, the truth will win.

And I really see Swami since many, many years how much hard work he's doing. One time I was on duty, and he came up, "You need to learn many, many things from me, especially hard work and patience and faith." And I think patience and faith, those two pillars, especially for our western student kingdom, it's a challenge, because if we look nowadays at the normal life out there it's really, we're not used to that being put in patience, and patience, and patience, and our faith is being tested.

So Baba knew why he put those words on his samadhi, because those words we all need to really, really, develop. And I'm seeing students coming, and then they're going again. Of course, we can't expect the fruits to be there after one year, two years in our processes. Even the master keeping us, guiding us along the way and lifting our inspiration, so faith and patience is also... even we don't like to hear those two words, but it's an illusion to believe that everything happens like that and we are being changed with all our monkey mind stuff in a powerful person like Jesus, and Swami, within a short period of time. If we look in the past, it took

many, many lifetimes for the saints, they sacrificed their whole life just to get an experience of the Mother. And if we look what Swami is doing, it's already a short-cut, but still we have to work on ourselves everyday and keep doing self reflection, "Hey where am I, where I'm stuck, what can I do?" and just keep go, keep trusting in your meditation process and keep go step-by-step-by-step.

And if I look back like ten years back when I came, if Swami said one word to me I couldn't even bring one word out my mouth, my face turned red. I didn't have self-confidence. I didn't have a lot. I was really going through a lot of hard times within myself. And if I see how much I've grown over the years, that's the real gift Swami has given to me, and to all of us, even each person is different. But I can say for myself, all that stuff, whatever I was facing many years back, it's gone. It's just gone and that's really thanks to Swami's hard work and through whatever seeds, whatever love I experienced from him, everything. And that's really the beauty of it.

Monika T: One thing Swami said today, "Your Swami is always loyal." What is our loyalty? Loyalty to our path, to the Guru Parampara, to everything we've been given, to our Swami, to stand in that. Everybody knows Swami, he has an unbelievable loyalty to each and every person.

Tatyana: And we should also be thankful for the hard time Swami's giving us. Even though we don't like it, but Swami's a great mirror, whatever is inside of you that needs to be washed, he's showing you that in the mirror. Sorry to say that, but many students, when it comes to that point that Swami's giving you the opportunity to recognize your own stuff, what you're holding inside, I know it's hard and it's painful, but that's the best medicine. So we should really appreciate a master who's not always loving, but at the same time knows how to be tough, when to be tough, to put you in the right direction, put you on the right track. And many students are not use to that. If you're getting close to the master... you don't even need to be close to him, the energy will automatically take care of that. But if we're in that process of going through our own doubts, own fears, whatever we're holding inside, we really need to be grateful also for those

hard times, and be strong and face it, and not to run away from the master, to blame our own heartbreak, to blame our own stuff on the master. Then we're really losing a great opportunity.

I've been through a lot with Swami where I felt like I wanted to run away because it was so tough, but it was my own stuff that was coming up, and I have to recognize that he's doing that with the intention to make me stronger, to bring more clarity in me, to open my heart more, to understand what real, true love is, not what we think love is. To understand what real, true love and loyalty is, not what the general belief system is out there in the world.

So it's a great opportunity to be tested also by the master in a way that, to the outside might not look nice, but it's really the right medicine for you to grow. Otherwise you get stuck in the bhakti - love, love, love surface level and then you keep carrying this stuff for how long, for how many lifetimes. So I would also like to share that, whenever you experience some confusion, or some hard time with the master, or in your home, or with your own processes, it's really part of your own purification.

And then look back once you're through one wave, then you feel more free, then of course the next wave is coming, so don't be disappointed when you're going through those waves since time. That's the time to just ignore, keep go, keep focus on your beautiful inner development and never forget your own fragrance. Also see from time to time, look back, "Hey, what really changed in me? What really developed in me?" And build on that, build on that inner consciousness to grow more and more. And then, I think, especially during these times focus on your inner beauty, your inner truth.

Monika T: You know it's natural on the spiritual path that we have periods of doubt, periods of crisis, periods of lack of faith and all of that. It's natural because it's the only way we can discover the faith in us, is by going through that process of lack of faith. But there's a way to go through your own doubts without spreading poison. We can look at that, we can go through that, we can look honestly at whatever it is that we're facing. In the case now, different students are going through their crisis, believing things, but you can go through that without having to spread poison. You will be shown the clarity of what is true, what is real.

I mean we're all walking through, Swami's showing us constantly about how to walk through the illusions and come out and see the Reality. He's making us go step-by-step through all the illusions and all the experiences to understand completely the nature of the illusion, and how it traps us through our own blocks. Or how we don't see things clearly but make judgments, and then create actions and more karma, and more getting caught in the wheel.

So each student can walk through this in a beautiful way. We have a whole lineage to help us. So think on that message, just remember who Swami is in our lives, and as you're saying Tatyana, to come to some clarity and find the clarity for ourselves and stand in that, and sending our prayers.

I'm sure in the next few weeks we'll be hearing from Swami again about bringing the knowledge out. Thank you guys in Penukonda for everything you're doing there, taking care of him, and the ashram, and everything that's going on there. Now it's three in the morning here.

Tatyana: So you deserve to go back to your beds and have a beautiful sleep. We think of you from here all the time. Swami's always caring about what's going on out there. First we thought, "Ah, let's postpone the talk," but he said, "No, no I want to talk. At least I want to talk for a few minutes." Then he went back to his work. And I think we will do the same now, you guys will go back to sleep, and we'll go back to take care of whatever we have to do here at the moment.

Monika T: Thank you Tatyana, and thank everyone for joining us from around the world on this call. Blessing to everyone and keep sending your prayers and your thoughts on the divine mission and on Swami.

Tatyana: Yeh, okay, lots of love and talk to you soon, all the best, bye.

End of Call
